

# The Tool Box

Serving the Electrical, HVAC & Plumbing Industries Since 1912

Volume 14, Issue 203 June 1, 2017

## Message From Associate President Michael Hunter

As Stan Harbourt said last month, time sure does move fast. It seems like yesterday that Gerald Edwards was asking me if I would think about taking on the role as Associate President of MCASC. I have been a part of many organizations and volunteer groups over the years, but I can honestly say that this has been one of the most rewarding roles I have ever had. I have had the pleasure of meeting many people from all across the state and have made a lot of lifelong friends in the process. Not only has the experience been great for me, it has also been great for my family. I know that Missy and the rest of my family have enjoyed being a part of this group as well, and we have many great memories of the things we have been involved in with MCASC.

Over the last couple of years, I have attended meetings and events across the state and have witnessed true displays of friendship and camaraderie, even among competitors. I don't know of any other organization where I have seen a group of competing contractors, competing suppliers, and other supporting companies come together to work as one body. The efforts that go into raising scholarship funds and handling legislative issues are no small feats. In my opinion, there is no other professional construction organization that can hold a candle to MCASC.

As you all know, this could not be done without the work of Mona. She is truly the backbone of this group, and it has been my pleasure to work alongside her. Mona, THANK YOU for what you have done for me over the years. The passion that you have around this organization is infectious, and we are extremely fortunate to have you as the director. More importantly, I want to thank you for always being so welcoming to my family. Any time I mention the MCASC to the kids, they always ask how Miss Mona is doing! I will always value my friendship with you, and please know that I am here for you if you need me! I also want to thank Anna for all of the work that she puts in behind the scenes in Columbia. She is a valuable part of this organization, and her efforts are greatly appreciated as well.

I can say that I am truly indebted to MCASC. Before I was involved, I knew a lot of you that are reading this as customers or people that I might have seen at a meeting. Now, you are so much more. You are friends and family. I am grateful for the opportunities that being Associate President has given me, and I will value the relationships that I have made forever. I am excited to see what the future holds. As my replacement, Leslie Whitehurst is going to do an awesome job! I hope she does not try to make me look too bad! There could not be a better person to take on the tasks at hand.

Thank you to all those that have helped me along the way, and I am easy to find should you ever need me. I don't plan on being a stranger, and I look forward to continuing to see you on down the road!

See you in Vegas!!!

Michael

**Mechanical Member:  
CULLUM MECHANICAL CONSTRUCTION, INC.**

Cullum Mechanical Construction, Inc. celebrates its 45<sup>th</sup> year, after incorporating on July 26, 1972, to provide mechanical construction, engineering and maintenance services. Today two subsidiaries, Cullum Constructors and Cullum Services, serve clients throughout the Southeast. Cullum has unlimited licenses in mechanical construction and engineering and general construction in South Carolina, as well as mechanical and plumbing licenses in North Carolina and Georgia.

Its corporate headquarters occupies 30,000 square feet in Charleston, South Carolina, with Service locations also in Columbia and Greenville. Sheet metal and pipe prefabrication are performed in 18,000 square feet of project support space.

Recent investments in Autodesk and Revit modeling and fabrication software, followed by sheet metal and pipe CNC plasma cutting and roll-forming machinery, are helping deliver efficient high quality products and services to effectively serve our clients.

Completed projects include MUSC Ashley River Tower and Diagnostic and Treatment Center, the Boeing Propulsion, Body Paint, and Research & Training Center, Charleston County Detention Center, arenas at the College of Charleston, University of SC and Clemson, and aquariums in North and South Carolina. Current work includes the Central Headquarter Building at Shaw Air Force Base, Volvo Cars, Mercedes Benz Vans and Blackbaud World Headquarters.

Cullum Mechanical Construction, Inc. wishes all members of the Mechanical Contractors Association a very prosperous year.

**“Tool Box Talks” - Safety Tip**

**HEAT SURVIVAL**

Hot day, hot job, high humidity and BINGO .... another heat victim. No one is immune, and construction workers are prime candidates for heat related illnesses. During hot weather stay alert for telltale symptoms and remember these first aid tips:

**HEAT EXHAUSTION** - Symptoms are heavy sweating, nausea, headache, weakness, vomiting, tiredness, fast pulse. First Aid - Move to a cooler area, cool by wetting towels and wiping down the forehead. Remove any wet or sweat soaked clothing. Fan the victim. Do not give any fluids to a victim unless fully conscious. Follow up with a medical checkup.

**HEAT CRAMPS** - Symptoms are severe muscle spasms in the back, stomach, arms and legs, usually caused by drinking large quantities of water without replacing salt during periods of heavy perspiration. First Aid - Move to a cooler area. Make sure that no water is given unless fully conscious. When you do give water make sure that the victim takes only slow small sips. Get medical attention as soon as possible.

**HEAT STROKE** - Symptoms are high temperature and dry skin, rapid breathing and pulse. Victims may appear disorganized and confused, with headache, nausea, vomiting, diarrhea, seizures and the possibility of coma. First Aid - This is serious, so move fast to a cooler area and call an ambulance. Remove the outer clothing of the victim and apply cool water to the entire body. Fan the victim until professional medical help arrives.

To avoid heat illness, dress in cool clothing, wear your hard hat, don't over-exert your body during high temperature periods and get plenty of fluids. Remember that Heat related illnesses **MUST** have medical attention. If you are experiencing any of these heat related illnesses, going to the doctor will not affect your safety bonus, so go and get the medical attention you need. Heat illnesses should never be taken lightly.

**Safety signs alert you to dangers and warnings - read them, understand them, obey them. They were posted for your benefit.**

**MCASC Vision Statement**

The Mechanical Contractors Association of South Carolina (MCASC) will be the leading construction association in South Carolina for specialty contractors and suppliers in the electrical, mechanical (HVAC), and plumbing fields by serving its membership, the industry, and the Community in a vibrant and harmonious fashion.

**MCASC Mission Statement**

The Mechanical Contractors Association of South Carolina (MCASC) will provide its membership with:

- current business/technical information and support
  - a proactive political/legislative agenda
- a joint industry collaboration to improve relative business practices
- an ongoing effort to offer training opportunities for both professional and craft personnel
  - educational scholarships for deserving students
- the development of industry related career opportunities

The Association's objective for this mission is to enhance the future of the Construction Industry in South Carolina.
