

The Tool Box

Serving the Electrical, HVAC & Plumbing Industries Since 1912

Volume 4, Issue 83 June 1, 2007

Message From Associate President Mike Hough

I wish to extend my sincere thanks and appreciation for the opportunity to have served as your Associate Member President for the past two years. Additional thanks are in order for the assistance given by the Associate Committee Members and their support. And last, but certainly not least, my deepest appreciation goes to Mona Flowers for her support, guidance, and assistance in preparation for all Associate Events.

What a pleasure it has been working with three different State Presidents. Beginning with Ned Forsberg at the Pinehurst Convention and moving on with Darlene McGee at Sawgrass. Next came the Winter Convention at Myrtle Beach with Darlene, then moving forward to the Summer Convention at Brass-town Valley when Steve Brewer took control of the helm. The two years seem to have flown by with the final convention of my tenure ending at Lake Black-shear Resort, Cordele, Georgia, with Steve presiding. What great settings along with this wonderful threesome to spend my two-year term as Associate President.

Many thanks are in order to the entire Membership for your continued support of the Santee Scholarship Tournament. With this support we have managed to elevate our total fund to \$61,330.31. This has allowed us to increase our scholarship annual total to \$3,000. Thanks to the additional monies from the George W. Bryce, Jr. Memorial Golf Tournament and the Piedmont Area MCASC Tournament, we were able to give a total of five scholarships totaling \$5,000 in 2006-2007. This current year, 2007-2008, we have awarded four scholarships at \$1000 each.

All in all, what a wonderful opportunity The Mechanical Contractors Association has afforded me to make the friendships of so many different people. From monthly local chapter meetings, to oyster roasts in Charleston and meaningful Christmas parties hosted by the Pee Dee at the home of Bill Self. These friendships I will cherish for life. What a tremendous experience all of you have given me and for that I will forever be indebted. Thanks for everything as I look forward to continued service and growth with our Association.

Sincerely,
Mike Hough
MCASC Associate President 2005-2007

INVITATIONS
HAVE BEEN
MAILED!!

**Mechanical Member:
BARTSCH ELECTRIC, HEATING, AND AIR**

Bartsch Electric, Heating, and Air has been a labor of love since 1995. We started while Peter Bartsch still had a full time job and he was doing jobs after work and on the weekend. At that time he was playing the renegade by driving his Bartsch Electric, Heating, and Air truck to his regular job. Pretty soon Peter realized his customers were more demanding and more numerous than he could handle on the side. Peter started in a home office and eventually moved to South Pine Street when he needed more room.

Our customers are our advertisers. We get most of our business through word of mouth. We are very proud of our 100% satisfaction score from American Standard Customer Care. Bartsch Electric, Heating, and Air has been known to provide services to an entire street because neighbors have seen our kangaroo on the side of our vans. Our customers know that we definitely "Hop to it!" (no matter the weather).

At Bartsch Electric, Heating, and Air we provide numerous services for our customers. We have a dedicated team of installers that install heat pumps, generators, air conditioning units, humidifiers, and other quality products. Our service technicians do a wonderful job of trouble shooting to fix a problem you may have with a unit or electrical work. No job is too small for Bartsch Electric, Heating, and Air. Whether our technicians are working on a multi-million dollar house or installing an extra plug for the holidays, they do a fantastic job.

Bartsch Electric, Heating, and Air

“Tool Box Talks” - Safety Tip
SAFETY AND SKILL COUNTS

A good operator knows how to handle earth-moving equipment efficiently and safely. Only an experienced operator should handle this type of equipment. Only the operator should be in the seat or on the operating platform while the equipment is in use. RIDERS ARE NEVER ALLOWED.

It takes intelligence and experience to know how to get the job done while maintaining safe equipment speeds which are consistent with roadway and other working conditions.

Because runways for equipment receive heavy usage and abuse from weather, the operator should report any unsafe conditions.

Excessive speeds in rough places and on poor construction roads may cause tilting, which can throw the operator from the equipment, or possibly cause the equipment to roll over. WEAR YOUR SEATBELT.

Safe operation of heavy equipment means that the operator is concerned with safety of other workers as well as his or her own safety. This is especially true of backing up. The operator must make sure that everyone is in the clear before backing up.

A skilled bulldozer operator understands how to manage equipment when ascending or descending steep grades. The operator maintains the proper speed according to the conditions and proper balance by keeping dozer blades close to the ground.

A scraper should never be operated without a safety line attached to the pulling unit. Flags and barricades should be used to warn traffic whenever construction equipment is being operated on or across roadways.

OPERATE EQUIPMENT WITH SKILL AND SAFETY SENSE.

**Associate Member:
UNITED RENTALS, INC.**

United Rentals was formed approximately 10 yrs ago with one main focus.....The Customer! We here at the Columbia branch of United Rentals take customer focus and step it up a notch providing other avenues to connect with you, the customer. We provide different services that are not usually associated with an equipment rental company. In addition to renting equipment for all of the different mechanical trades, we also offer a full line of Contractor Supplies and a full line Service Department.

Our Contractor supplies range from small everyday tools and supplies to large and specific bid orders of rebar, lumber, wire mesh, concrete chemicals, etc. We have specialists in these areas to help in your next bid quotes or projects. Our Service Department is staffed to include solely dedicated mechanics for customer owned equipment. They are skilled in all types of equipment and prepared to perform the maintenance on your machines without the equipment dealer pricing.

At United Rentals we will work hard for your business and partner with you to help save you money on your next project. Visit us at 1500 Bluff Rd and see how we can help you with all of your needs.

"George W. Bryce, Jr. Memorial Scholarship Tournament"

MCASC would like to Thank Darlene McGee and All the Sponsors & Participants whose contributions made the "George W. Bryce, Jr. Memorial Scholarship Tournament" such a huge success. Many Thanks To Each Of You!

MCASC Vision Statement

The Mechanical Contractors Association of South Carolina will be the leading construction association in South Carolina for specialty contractors and suppliers in the mechanical, electrical, and plumbing fields by serving its membership, the industry, and the community in a vibrant and harmonious fashion.

MCASC Mission Statement

The Mechanical Contractors Association of South Carolina will provide its membership with:

- current business/technical information and support
 - a proactive political/legislative agenda
- a joint industry collaboration to improve relative business practices
- an ongoing effort to offer training opportunities for both professional and craft personnel
 - educational scholarships for deserving students
- the development of industry related career opportunities

The Association's objective for this mission is to enhance the future of the Construction Industry in South Carolina.
